New York, Sept. 16.-There was a burst of animation with the closing dealings in stocks today, making the last prices the highest of the week and at considerable gains over last week's closing. Today's market was very dull until after the appearance of the bank statement and was similar to its predecessors of the week in being largely professional in its character. The undertone was strong throughout as con-

of an offer for the purchase of the company's land holdings. Chesapeake & Ohlo reflected the strong showing of its annual report. Some special de-mand also continued for the Wabash

The great general prosperity of the country has been balanced against the immediate exigencies of the money market as factors for consideration in stock operations this week. As the prevailing condition of the money mar-ket as reflected in the rates for loans ket as reflected in the rates for loads has been tranquil, the prosperity of the country has asserted its influence to allow prices to be lifted to a higher level. It is generally agreed that the advance has been due largely to transcriptors of the professional class of operations of t erators, these transactions including active manipulation, and the com-mission houses have complained that courses to their clients owing to the requirements to be met out of the shrinking reserve resources of the banks. But the success attending efforts to advance prices is evidence of the desire of holders to cling to their stocks except as forced to part with them by withdrawal of requisite credits. That these credits have been forthcoming is evidently due to supplies from other sources than the clearing house banks, as the need for loan contraction on their part has been clearly indicated by the course of events during the week. The trust companies as known to be taking over forts to advance prices is evidence of the desire of holders to cling to their companies ae known to be taking over loans from the banks and foreign money markets have extended credits to New York. It is supposed also that some western institutions have placed oans in Wall street, although the full current of the movement of currency to the interior has been maintained Bonds were dull and moved narrowly in sympathy with stocks. The United States 2s declined ½ per cent, while the old 4s advanced ½ and the new 4s ½ per cent on call of the week.

professional in its character. The undertone was strong throughout as condidence was strong throughout as condidence was strong that the banks would manage to conserve their showing of a surplus reserve by the shifting of loans to trust companies and other institutions as was done last week.

The appearance of the bank statement justified this confidence and was followed by the final outburst of demand which made the closing strong. The loan reduction, while very heavy, was only about two-thirds as large as the unparelleled contraction effected last week. The decline in cash reserves was up to the common expectations. Stock market comment shifted to the prospect of further gold imports. Next week as a relief from the continuel of drain upon the bank reserves by the subtreasury absorptions and the novement of funds to the interior. Reports from London of demand for gold upon that center from other sources were studied with interest as bearing upon the chances of securing for New York the large shipments of gold now moving towards London from South Africa and Australia.

Of special interest was the report that Paris was competing to secure some part of these expected arrivals. If London becomes hard pressed to maintain her gold supply it is expected that the demand from New York will be shifted from that center to Paris. The special strength of Canadian Pacific in the market was due to a report of an offer for the purchase of the company's land holdings. Chesapeake & Ohlo reflected the strong showing of

The Financier says this week: Last week's and the previous week's official statement of the New York associated banks were most remarkable exhibits, for they illustrated the ability of managers of the larger banks to meet what may be regarded as threatening situations in such a manner as to avoid a crisis. In the week ending Sept. 3, and again last week, the heavy loss of cash due to sub-treasury operations and to the drain of money to the interior seemed to make it probable that the surplus reserves would be wiped out. The bank managers were equal to the emergency on the first occasion, and the losa; were contracted by an amount unprecedented in the history of the institutions and sufficiently large to contribute to a reduction in deposits and cousequently in reserve requirements, so that the decrease in the surplus was uniformly small and the statement showed a fair working balance. Last week an extinction of the surplus was again threatened, the preliminary estimates indicating a loss of cash even greater than the previous week. The bank managers, through a heavy contraction in loans, thereby reducing deposits and reserve requirements, brought about an almost infitesimal decrease in the surplus, and the statement again showed a good warking balance. It would seem that there must have been more or less concerted action by the bank managers on both these occasions to have contributed to these remarkable results, and if there was such an action there appears to be a possibility that in future, when tense situations develop, similar concerns may be relied up to avert a crisis. The loans of the banks were contracted last week by \$20,861,600, making, with the reduction of the previous week. \$5,098,900 in the fortnight and \$30,241,800, compared with the maximum of the year, which was recorded on Aug. 5.

The cash loss last week was \$1,462,400, making a total o

(14.02). The statement made a good proof the sum of the contraction in loans, and the loss of cash being only \$74,400 smaller than the decrease in deposits.

Chicago. Sept. 16.—Profit taking on a large scale led to a weak finish in the wheat market today. At the close wheat for December delivery was down 1614. Corn is up 1618. Onts show a loss of 16. Provisions are practically unchanged. In wheat at the start no signs of weakness were in evidence. On the contrary, sentiment was quite bullish, opening quotations for December being up 16 to 12 at 844 to 84%. General rains northwest and southwest formed the chief basis of strength, although there were a number of minor influences. The most important, perhaps, was the continued strength of cash wheat. At Minneapoils No. 1 northern was quoted 3 to 3½ over the September price. During the first hour of trading here shorts were fairly active bidders. A leading bull also was reported as buying quite freely. Under this demand December advanced to 34%. Later an impression developed that the bullish leader who had been an active buyer earlier in the day had turned seller on the bulge. This started general selling, which resulted in considerable reaction in prices, December declining to \$44. The market was weak the remainder of the session, quotations at the close being practically at the lowest point of the day. Final quotations of December were at \$44.6844. The corn market was firm. December opened a shade to 1614 and closed at 45.

The corn market was subjected to considerable profit-taking, resulting in slight declines. December opened 4 hower to a shad higher at 28% to 287.622, sold off at 23% and closed at 28%.

A 5c advance in the price of live hogs had a stimulating effect on the provision market. In addition, shipments of meat and lard were large. Trading was fairly active and the market was firm the entire session. At the close January pork was up 2½ at 12.37%. Lard was up 2½ at 6.85. Ribs were unchanged at 6.47%.

The leading futures ranged as follows: GRAIN AND PROVISIONS.

Saved by Dynamite.

Sometimes a flaming city is saved by dynamiting a space that the fire can't cross. Sometimes a cough hangs on so long you feel as if nothing but dynamite would cure it. Z. T. Gray of Calhoun, Ga., writes: "My wife had a very aggravated cough, which kept her awake nights. Two physicians could not help her, so she took Dr. King's New Discovery for Consumption, Coughs and Colds, which eased her cough, gave her sleep and finally cured her." Strictly scientific cure for bronchitis and La Grippe. At Z. C. M. I. drug dept. Price 50e and \$1.00. Guaranteed. Trial bottle free. teed. Trial bottle free.

PREPARE FOR WINTER

DRS. SHORES & SHORES GIVE TIMELY WARNING TO ALL SUFFERERS FROM CATARRH AND LUNG TROUBLE-AND POINT OUT THE DANGER IN DELAYING TREATMENT UNTIL WINTER SETS IN. IF YOU HAVE CATARRH IN ANY FORM THIS WARNING IS MEANT FOR YOU.

HUNDREDS OF "MILD CASES" BECOME INCURABLE EVERY WINTER.

It is an alarming fact, but true nevertheless, that hundreds, yes, thousands, of cases of Catarrh that could be called "Mild" during the summer months, suddenly become worse and develop into Consumption and Asthma in the winter months. The diseased nembrane of the head, nose, throat and lungs OPENLY INVITES CON-SUMPTION, and when the cold winds of winter set in, quickly produce incurable cases.

YOU HAVE NOT A DAY TO LOSE-BETTER BEGIN TREATMENT AT ONCE.

For Drs. Shores & Shores are only HUMAN, and while they can and do cure Catarrh in all its forms quickly and cheaply-THEY CANNOT CURE CONSUMPTION IN THE LAST STAGES, AND DON'T PRE-TEND TO-and if you allow your ease to run on without treatment you are committing SLOW SUICIDE. Do you hawk and spit in the mornings? Do you sit up at night to catch your breath? Have you a pain

over the lungs? Do you cough at all? Simple little symptoms they seem, but they may mean CONSUMP-TION AND DEATH if allowed to run on unchecked. Has your Doctor told you that little cough that hangs with you will "PASS OFF?" Do you realize that YOU may "PASS OFF" WITH IT? YOU ARE SLEEPING ON A VOLCANO-and must be up and doing. Don't wait, don't delay - don't tempt fate, but do this duty to yourself and family TODAY. Come to Drs. Shores and be cured-it won't take

long NOW—it won't cost much NOW—only \$5 a month, including all medicines and treatment—for any Catarrhal disease. Much cheaper, much safer, than paying the Undertaker this winter. KEEP THIS BEFORE YOUR EYES UNTIL YOU COME TO DRS. SHORES AND BEGIN YOUR CURE. Consultation and Advice free and confidential.

Beware of "Fake Medical Companies."

Drs. Shores in their many years of practice in Sait Lake City, have never resorted to abuse of any honest physician-but on the contrary Drs. Shores have always welcomed HONEST competition-but when TRAMP DOCTORS and ITINERANT FAKIRS, hiding under the cloak of a "Fake Medical Co," seek to trap the unwary, Drs. Shores feel it a duty to call attention to such frauds. EVERY DOCTOR ENTIT-LED TO PRACTICE MEDICINE IN UTAH HAS HIS NAME AND CREDENTIALS ON RECORD IN THE COUNTY RECORDER'S OFFICE. If you intend to consult a doctor, FIRST EXAMINE THE RE-CORDS AND SEE THAT HIS NAME IS THERE. It is an old-time trick to advertise a "Fake Medical Co," and parade one doctor as possessing great skill (who is either a non-resident of the state or is dead and buried), and then palm off some unscrupulous quack on the sick when they come to consult the doctor advertised. DID YOU EVER HEAR OF A GEN-UINE, REPUTABLE PHYSICIAN DOING BUSI-NESS WITH THE SICK AS A "FAKE COMPANY?" The "COMPANY" furnishes the cloak under which ANY QUACK can practice. If you go to see a doctor be sure to SEE HIM IN PERSON, and don't be satisfied with some one who "RIPRESINTS THE DOKE-TOR" on a salary of \$60 per month.

Compare the picture of the doctor advertised with the face of the man who consults you-then ask him who he is.

Drs. Shores conduct their business under their OWN NAMES-if you consult Drs. Shores & Shores, you see the DOCTORS PERSONALLY. If you consult other doctors, BE SURE YOU SEE THE DOC-TOR HIMSELF.

Sore Running Eyes for Years-The Result of Catarrh Quickly Cured by Drs. Shores & Shores,

STALEY WICKER, Bountiful, Utah. MRS. HELEN WICKER, of Bountiful, Utah, tells of her son's remarkable cure. She says: "My nineyear-old son, Staley, has suffered for the past five or six years with Catarrh-which greatly affected his eyes. They became sore, and constantly run, so much that we were constantly wiping and dressing them. In the morning they would be full of matter-and before we could send him to school we had to work on them with warm water each morning-and then the water would run from both eyes

"He had headaches, head and nose stopped up and was in a serious condition when we took him to Drs. Shores & Shores. Under Drs. Shores' care he began to improve immediately, and after a short course of treatment his eyes are entirely cured, clear and strong—his other symptoms have disappeared—and I think it such a wonderful cure that I want to tell all mothers what Drs. Shores have done for my boy, Signed, "Mrs, Helen Wicker,' Bountiful, Utah."

\$5--CURES BY MAIL--\$5

Sick people who live out of the city should write Drs. Shores for their w symptom blank and take advantage of this grand offer and be cured \$5 a month. Write if you cannot call, and be cured at home. Consultation free for any disease.
